

1 - sudo nano /etc/init.d/PlayBox

2 - Ecrire dans le file :

```
#!/bin/sh

case "$1" in
    start)
        echo 'Lancement de Playbox'
        mpd
        java -jar path/Followme-PlayBox.jar
        ;;
    stop)
        ;;
    *)
        exit 1
        ;;
esac

exit 0
```

Change path by .jar path.

3 - sudo chmod 755 /etc/init.d/PlayBox

4 - sudo update-rc.d PlayBox defaults
